Summary

Software Engineer (Mobile Developer) with **2 years of hands-on experience** in React Native, React.js, and TypeScript, specializing in building scalable, production-grade applications. Proven experience in developing complex systems such as drag-and-drop template builders⁷, and ERP-based mobile applications used by administrators, teachers, and parents.

Strong expertise in reusable component architecture, Redux-based state management, API integration, and cross-platform mobile development (Android & iOS). Experienced in handling production deployments, debugging critical issues, and optimizing performance.

Actively leveraging AI-assisted development and agentic workflows to accelerate development, improve code quality, and efficiently deliver high-impact features in fast-paced environments.

Skills

Frontend: React.js, React Native, HTML, CSS, Tailwind CSS

Languages: JavaScript, TypeScript, C/C++

State Management: Redux Toolkit, Redux Persist

Mobile: Android, iOS, App Deployment, Production Debugging

Core: API Integration, Drag-and-Drop Systems, PDF Generation, IndexedDB

AI: AI-assisted Development, Agentic Workflows, Prompt Engineering

Tools: Git, GitHub, Node.js, react-rnd, html2pdf.js, DOMPurify

Experience

Software Engineer (Mobile Developer)

May 2024 – Present

Edunext Technologies Pvt. Ltd.

- Developed and maintained production mobile applications using React Native and TypeScript
- Built a **Report Generator system** enabling dynamic creation of certificates, receipts, and ID cards
- Designed and implemented a **drag-and-drop template builder** used for dynamic layout generation
- Worked on **Edunext Management App** for school administrators (student, employee, finance data)
- Handled production updates and bug fixes for **Parent (1M+ users), Teacher, and Student apps**
- Debugged Android version-specific issues and ensured stable releases across devices
- Collaborated during school visits to gather real-world requirements and improve usability

Project: simplyAdmission

- Built the application from scratch using React Native and TypeScript
- Developed **50+ screens** and reusable components
- Created scalable architecture and core building blocks for long-term maintainability

Professional Projects

Drag-and-Drop Report & Template Builder

React, TypeScript, Redux Toolkit

- Developed a scalable template builder for ID cards, reports, and certificates using drag-and-drop
- Engineered canvas editor with zoom mapping, dynamic sizing, and typography controls
- Implemented Undo/Redo state management with Redux Toolkit and IndexedDB persistence
- Built export engine for high-quality HTML and PDF generation using html2pdf.js
- Optimized performance with image compression and secure rendering using DOMPurify

SimplyAdmission (School Admission System)

React Native, TypeScript

- Built the application from scratch, designing the complete architecture and core building blocks
- Developed **50+ screens** with reusable and scalable UI components
- Implemented structured navigation, form handling, and API integration for admission workflows
- Designed a maintainable and modular codebase to support future feature expansion

EduNext Management App (Admin ERP Dashboard)

- Built ERP dashboard for administrators to manage student, employee, and financial data
- Implemented modules for attendance, fee tracking, and analytics dashboards
- Developed scalable UI with API integration and dynamic data visualization

EduNext Parent App

- Handled production issues, feature requests, and bug fixes for a high-scale application
- Resolved Android-specific issues and improved app stability across devices

EduNext Teacher App

- Implemented features, UI improvements, and bug fixes across multiple modules
- Ensured consistent UI/UX across Teacher and Student applications

Education

HI-Tech Institute of Engineering and Technology	2024 – 2026
Master of Computer Application (MCA)	
HI-Tech Institute of Engineering and Technology	2021 – 2024
Bachelor of Computer Application (BCA)	
Vishal International School (CBSE)	2020 – 2021
Class XII – 78%	

Certification

Full Stack Java Developer Program	Oct 2023 – Dec 2023
-----------------------------------	---------------------
